SELLING ARGUMENT DOG TREATS

- Dog treats made in Sweden with Swedish raw materials
- Swedish raw materials contain no antibiotics & climate smart
- Natural products that are grain-free & without extra additives
- There is something for everyone, e.g. Crispy Chips for activation and Crunchy Cookies as dog biscuits

DOG ICE CREAM

Dog ice cream is the perfect treat that is fantastically good, it is cooling on hot summer days but it can also be enjoyed in winter for the sake of the taste. The dog ice cream is made from lactose-free natural yoghurt, protein (depending on taste) and a pinch of coconut sugar and agave syrup for consistency. It is manufactured in our own factory in Karlshamn with Swedish raw materials.

The fact that the dogs need to lick the ice cream directly from the cup gives a soothing feeling and a longer taste experience. If you have an anxious dog or a dog that needs to be stimulated for a while, for example the first car ride, the ice cream is perfect as a calming stimulus. The dog ice cream is served directly from the freezer in the cup.
